## OBJECTIVE

I strive to learn more about software engineering every day so that I can work on meaningful projects and establish a career in the software field.

## EDUCATION

**Computer Science B.S. | Penn State University**

AUG. 2020 – PRESENT

Pursuing a bachelor's in computer science from Penn State's College of Engineering.

## EXPERIENCE

**Inventory / Warehouse / Cashier | Busy Beaver Building Centers**

OCT. 2018 – PRESENT

Demonstrating people skills and a strong work ethic assisting customers and maintaining inventory in the store, as well as actively learning skills and techniques related to home improvement in order to better assist customers with their projects.

**Camp Counselor | YMCA - Camp AIM**

JUN. 2018 – JUL. 2019 (SEASONAL)

Worked with adolescents with intellectual and physical impairments to build behavior and thinking skills in a fun and safe environment. This allowed me to demonstrate and build patience and quick thinking in tough situations and under stress, as well as mature my ideas about disabilities and build relationships with unique individuals I would not have met otherwise.

**Games Dept. Team Member | Kennywood Park**

JUN. 2017 – SEP. 2017 (SEASONAL)

Gained experience communicating with members of the community and keeping order in stressful situations.

## SKILLS

- Adaptability
- Empathy
- Attention to detail
- Troubleshooting
- Problem solving
- Debugging

## ACTIVITIES

I enjoy spending my time discovering new things in both the real and software world, and I believe that this is most enjoyable when done with a group of people. I love to help everyone in any way I can and often go out of my way to ensure other's problems are solved.
